

Guerrilla RF Announces Completion of \$2 Million Series B Funding Round

Capital to Launch Additional Products into Mass Production and Generate Self-sustaining Cash Flow

GREENSBORO, N.C. – May 18, 2015 – Guerrilla RF Inc., a leading provider of high performance microchips for wireless network infrastructure, today announces the closing of a \$2 million Series B funding round led by two angel investors. Charlotte Angel Fund, Piedmont Angel Network and a growing list of individual investors also participated.

“Customer interest and design activity continues to blow away our expectations,” said Ryan Pratt, founder and CEO at Guerrilla RF. “As a result of securing over 20 design wins, we are being driven to accelerate mass production schedules for multiple products. With this funding, we can ramp up our revenue much more quickly and pursue our goal of achieving self-sustaining cash flow in 2016.”

According to Research and Markets, the overall wireless network infrastructure market will see tremendous growth over the coming years. Growing at a compound annual growth rate of over 5 percent, the market will account for over \$104 billion in annual spending by the end of 2020.

About Guerrilla RF

Guerrilla RF provides high performance monolithic microwave integrated circuits (MMICs) to wireless infrastructure original equipment manufacturers in multiple market segments, including enterprise/carrier-class WiFi access points, small cells, wireless backhaul, and cellular repeaters. The company’s patented Guerrilla Armor™ technology enables greater coverage area and higher data rates for wireless networks. Headquartered in Greensboro, N.C., the company was founded in April 2013 by Ryan Pratt. To date it has raised \$3.5 million in funding and introduced over 30 products. All trademarks are the property of their respective owners. For more information please visit <http://guerrilla-rf.com> or follow the company on [LinkedIn](#).
