

Guerrilla RF Policy on the European Union REACH Regulation (EC) 1907/2006

Guerrilla RF Corporation supports the European Union (EU) REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) Regulation. As defined in (EC) No 1907/2006, Title I, Chapter 2, Article 3.2, Guerrilla RF has determined that our IC products would be considered "articles".

Registration and Notification Requirements of Substances in Articles

As defined in (EC) No 1907/2006, Title II, Chapter 1, Article 7 ¶ 1 and 2

1. *Any producer or importer of articles shall submit a registration to the Agency for any substance contained in those articles, if both the following conditions are met:*
 - (a) *the substance is present in those articles in quantities totaling over one tonne per producer or importer per year,*
 - (b) *the substance is intended to be released under normal or reasonably foreseeable conditions of use.*

Guerrilla RF Response: Guerrilla RF's IC products do not constitute *articles* for regulation or registration based on their intended and anticipated use.

2. *Any producer or importer of articles shall notify the Agency, in accordance with paragraph 4 of this Article, if a substance meets the criteria in Article 57 and is identified in accordance with Article 59(1), if both the following conditions are met:*
 - (a) *the substance is present in those articles in quantities totaling over one tonne per producer or importer per year;*
 - (b) *the substance is present in those articles above a concentration of 0.1% weight by weight (w/w).*

Guerrilla RF declares that no substances of very high concern (SVHC) are found at a concentration over 0.1% as a weight percentage in the final article.

These substances can be found at the following link. [Candidate List of substances of very high concern for Authorisation - ECHA \(europa.eu\)](#)

Summary: After careful review and with the cooperation from our supply chain, Guerrilla RF certifies that to the best of its knowledge the IC products designated by Guerrilla RF comply with REACH SVHC 253 requirements outlined in EC 1907/2006 for registration and notification.

Exception(s): Covered parts of this declaration exclude materials supplied by the customer, the packing materials used in the shipping to protect the devices delivered and any Guerrilla RF engineering evaluation boards due to potential use of Pb solder when soldering the IC to the board. This Certificate only applies to currently active individual IC components.

Summary Date: 4 February 2026 / 253 SVHC List.

Should you require further information or have any questions, please contact Guerrilla RF at rohs@guerrilla-rf.com referencing REACH in the Subject Line.
